DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1 and 11 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claim 1, "monitoring a rate of I/O requests from the first host to the first storage system thereinto by the first storage system; and determining an operation status of the first host based on the rate of I/O requests from the first host by the first storage system."

As in claim 11, "wherein the first storage system is configured to: monitor a rate of I/O requests received from the first host thereinto; and determine an operational status of the first host based on the rate of I/O requests from the first host."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
